Giovani Velasquez

Junior Full Stack Developer

I am a well-qualified self-taught Junior Full Stack Web Developer with more than two years developing real world projects from the front-end and back-end side. Proficient expectations in most used programming languages as HTML, CSS, JavaScript, PHP and MySQL to develop and/or integrate new features to run business operations. In order to speed up results, I use React library as my client side and Laravel Framework as my server side.
